PML specialise in the provision of bespoke service orientated solutions within all business sectors and markets. Companies seeking to develop and improve both their performance and efficiencies utilise the services of PML within the following, inter-related categories:

- Integration
- Mentoring and Coaching
- Change
- People Management
- Performance
- Audit Services
- **ASSET MANAGEMENT**

Project Overview

The National Probation Service (NPS) has commenced a programme in designing and implementing offender assessment and supervision programmes that effectively reduce re-offending and improve public safety

NPS wished to establish 'best practice' throughout its business and particularly in developing excellent Asset Management Services

The Service

PML were required to mobilise two Asset Management programmes following their support in both the tender and bid award processes. This resulted in some 388 properties being brought on line within relatively condensed time parameters

PML have continued to provide ongoing support in performance improvement and change management services together with the identification and implementation of best practice to reduce cost and improve service

Client Benefits

Because of the in depth knowledge of the Custodial sector that PML hold this programme was accelerated to meet the business need thus reducing time and cost. Best practice having been established and benchmarked against similar service providers has illustrated how successful this programme was in terms of value for money and enhanced service delivery.
