- Integration
- Mentoring and Coaching
- Change
- People Management
- Performance
- **AUDIT SERVICES**
- **ASSET MANAGEMENT**

Project Overview

PML were commissioned by AMEC Building & Facilities Services to provide a comprehensive review of a major PFI bid that they were due to submit and highlight areas for improvement.

Service

PML delivered a constructive critique of this document ensuring that it met the requirements of the tender and where it failed to do this highlighted issues for improvement which included:

- Cohesive congruent response showing a fully integrated supply chain.
- Additional service detail where appropriate.
- Additional corporate detail where appropriate.
- Improved presentation and fluidity
- Robust financial management methodology
- Illustrating best value and performance measures

Subsequently PML were further commissioned to produce a new document based on this critique to meet the tender return timescales and this document met all of the client requirements together with those of the over arching PFI Special Purpose Company.

Client Benefits

- Document produced to the standard required in the prescribed time frame.
- Minimal disruption to AMEC core business during document production.
- Cost effective alternative to 'in house' production
- Guaranteed inclusion of current market requirements
